INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions List*.

The MONTHLY LIST consists of three parts. Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals with their tables of contents translated into English. However, accessions printed earlier than 1947 are not included.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Sample title: Electric action of the brain in glaucoma. L.S.Levina, G.M.Neishtadt. Vestnik oft. 30 no.5: 8-12 S-O '51.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 5, pages 8-12.

A list of periodicals included in the current issue, with abbreviations used, is given at the beginning of Part C in each issue of the LIST. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Cumulative lists of periodicals included in the current volume appear in numbers 6 and 12 of that volume. These lists are arranged by subject; the symbols of American libraries other than the Library of Congress, known to have current files of such periodicals, follow each title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols* representing other libraries indicate when items are available in those libraries. Curves () around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

A cumulative author, subject, and periodical location index to the first three volumes of the MONTHLY LIST is available as a separate publication. Beginning with Volume 5, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, \$9.00 a year domestic, \$11.00 a year foreign. Price of Cumulative Index to Volumes 1-3, \$1.50.

解: 设 $z = x + yi$, 则 $z^2 = (x + yi)^2 = x^2 - y^2 + 2xyi$.
 由 $z^2 = 1 + i$ 得 $x^2 - y^2 = 1$ 且 $2xy = 1$.
 由 $2xy = 1$ 得 $y = \frac{1}{2x}$, 代入 $x^2 - y^2 = 1$ 得 $x^2 - \frac{1}{4x^2} = 1$.
 两边同乘 $4x^2$ 得 $4x^4 - 1 = 4x^2$, 即 $4x^4 - 4x^2 - 1 = 0$.
 令 $u = x^2$, 则 $4u^2 - 4u - 1 = 0$.
 解得 $u = \frac{4 \pm \sqrt{16 + 16}}{8} = \frac{4 \pm \sqrt{32}}{8} = \frac{4 \pm 4\sqrt{2}}{8} = \frac{1 \pm \sqrt{2}}{2}$.
 因为 $u = x^2 \geq 0$, 所以 $u = \frac{1 + \sqrt{2}}{2}$.
 所以 $x^2 = \frac{1 + \sqrt{2}}{2}$, $x = \pm \sqrt{\frac{1 + \sqrt{2}}{2}}$.
 当 $x = \sqrt{\frac{1 + \sqrt{2}}{2}}$ 时, $y = \frac{1}{2x} = \frac{1}{2\sqrt{\frac{1 + \sqrt{2}}{2}}} = \frac{\sqrt{2}}{2(1 + \sqrt{2})} = \frac{\sqrt{2}(1 - \sqrt{2})}{2(1 - 2)} = \frac{\sqrt{2}(1 - \sqrt{2})}{-2} = \frac{\sqrt{2}(\sqrt{2} - 1)}{2} = \frac{2 - \sqrt{2}}{2} = 1 - \frac{\sqrt{2}}{2}$.
 当 $x = -\sqrt{\frac{1 + \sqrt{2}}{2}}$ 时, $y = \frac{1}{2x} = -\frac{1}{2\sqrt{\frac{1 + \sqrt{2}}{2}}} = -\frac{\sqrt{2}}{2(1 + \sqrt{2})} = -\frac{\sqrt{2}(1 - \sqrt{2})}{2(1 - 2)} = -\frac{\sqrt{2}(\sqrt{2} - 1)}{-2} = \frac{\sqrt{2}(\sqrt{2} - 1)}{2} = \frac{2 - \sqrt{2}}{2} = 1 - \frac{\sqrt{2}}{2}$.
 所以 $z = \pm \sqrt{\frac{1 + \sqrt{2}}{2}} + (1 - \frac{\sqrt{2}}{2})i$.

1. The first of these is the fact that the
 2. 1940s and 1950s were a period of rapid
 3. economic growth and technological advancement.
 4. This was due to a number of factors, including
 5. the Marshall Plan, which provided financial
 6. aid to European countries, and the Korean
 7. War, which stimulated the economy.
 8. The second factor is the fact that the
 9. 1960s and 1970s were a period of economic
 10. stagnation and technological advancement.
 11. This was due to a number of factors, including
 12. the Vietnam War, which drained resources, and
 13. the oil crisis, which led to inflation.
 14. The third factor is the fact that the
 15. 1980s and 1990s were a period of economic
 16. growth and technological advancement.
 17. This was due to a number of factors, including
 18. the Reagan Revolution, which led to tax cuts,
 19. and the end of the Cold War, which led to a
 20. more stable international environment.
